

# Partnership Announcement!

## NavigateSOM

NavigateSOM is a turn-key, cloud-based suspicious order monitoring system. Our software helps protect you from regulatory action and to help you conduct business ethically.

## Ti Risk

Ti Risk analyzes claims data, patient journeys and referral patterns of HCPs to identify prescribers and patients who are at risk of being non-compliant with Federal law.

**QPharma and Five Rivers RX have a mutual commitment to tackling the opioid epidemic from a compliance standpoint.**

Together, NavigateSOM and Ti Risk allow manufacturers to analyze all aspects of their supply chain in an innovative approach. Our partnership is focused on bringing compliance peace of mind to the pharmaceutical industry's leaders!
